

We accept late submissions until February 10

II. Dubrovnik Conference on Cognitive Science – DUCOG II.

6-9 May 2010, Dubrovnik, Croatia

Central European Cognitive Science Association (CECOG) launches its second international conference in the historical town of Dubrovnik, Croatia.

The poster sessions will cover various fields of cognitive science. The tutorial talks in this year will concentrate on the topic of **perceptual learning**.

The conference is open for scholars and students doing research on **all aspects of cognitive science**.

KEYNOTE SPEAKERS

József Fiser

Faculty of Psychology, Brandeis University, Waltham/Boston, Massachusetts, USA
Probabilistic learning and perception

Ilona Kovács

Department of Cognitive Science, Budapest University of Technology and Economics, Hungary
Dissociable time-scales of perceptual learning

Dov Sagi

Department of Neurobiology, Brain Research, Weizmann Institute of Science, Israel
Perceptual over-learning

Steven M. Silverstein

UMDNJ-Robert Wood Johnson Medical School, Piscataway, New Jersey, USA
**Perceptual organization in schizophrenia:
Bottom-up and top-down influences, learning, and brain mechanisms**

Poster sessions

The core of the conference will consist of student research reports in the form of peer reviewed posters. The posters shall be organized around discussion groups chaired by senior scholars. Posters will be grouped around a central topic. Sessions will be chaired by a senior scholar assigned by the organizing committee.

Tutorial talks

The tutorials given by the keynote speakers concentrate on a given area. Their talk is not merely a presentation of some specific new research, but a survey of the tutors' own research, or of their fields, providing a general framework and message.

Abstracts shall be sent to ducog@cogsci.bme.hu

For further information visit the conference's website at www.cecog.eu
