

Dear Colleagues,

This year, the *Best Approaches in Data Analysis and Statistics Symposium* will be held in PÉCS (with on-site participation). Please find attached the poster of the event. We look forward to welcoming you to the conference. **Admission is free, but registration is required.** The call and (later the full program) are available here: [cogstat.org/badass](https://cogstat.org/badass)

Methods of data capture, processing, and analysis are evolving at a pace perhaps never seen before. There is almost no field of science that is not experiencing the advantages and disadvantages of rapid change. The aim of the Best Approaches Symposium is to introduce new or undeservedly forgotten old solutions and, at the same time, make these methods available and accessible. It is also an excellent opportunity to discuss and evaluate different methods for improving our research practices.

**Date** September 23, 2026

**Venue** University of Pécs, Institute of Psychology, Pécs, Ifjusag street 6, BTK building.

**Registration as presenter:** <https://forms.gle/jV462MVQXsY2m52Q8>

**Abstract submission deadline: 2026.05.31.**

**Further information:** [https://www.cogstat.org/best\\_approaches\\_symposium](https://www.cogstat.org/best_approaches_symposium)

Best regards,

András Zsidó (PTE-BTK)

Zsolt Palatinus (SZTE-BTK) and Attila Krajcsi (ELTE-PPK)
