# Winter School

## Human Action Control: Current Theories and Debates

### 13th – 16th of February, 2017

at the Department of Psychology, Schleichstraße 4, Tübingen

Once called the Cinderella of Psychology, research on human action control has attracted much research in the last decades within fields like Cognitive Psychology, Cognitive Sciences, Movement Sciences, Robotics, or Philosophy.

This Winter School brings together internationally recognized experts to teach about current hot topics and theoretical developments in action-related research.
